

Graymere Country Club Animal Policy Effective 10.24.2004

The purpose of this policy is to provide guidance to members and staff regarding pets on Graymere Country Club Property.

It is the policy of Graymere Country Club that no animals, with the exception of guide dogs, be allowed in the Clubhouse, the swimming pool grounds or any of the deck areas around the main level of the Clubhouse.

Only animals belonging to members are to be allowed on the grounds around the clubhouse and on the golf course. Any member who brings an animal onto the property is responsible for maintaining control of that animal at all times. If the member comes into the Clubhouse or otherwise leaves the animal, it shall be leashed in an area not prohibited by this policy.

Members should take care to prevent animals approaching other people on the property, particularly children. The member is also for removing any droppings the animal may leave.

Animals not belonging to members are to be removed from the property, either by staff or Animal Control.
